

IAS Magazine June 2022 Edition

Our Philosophy

The philosophy of International Academic School (IAS) is to motivate every child to be a purposeful and successful learner, every teacher an inspiring facilitator, and every parent an involved partner in their child's learning. IAS believes that every student is unique in his or her own way. The school nurtures student development in a safe, caring, inclusive, and enriching environment that allows each individual learner to thrive academically, emotionally, physically, and socially. Our philosophy is to open the doors of opportunity for all learners to have access to quality learning

Our Mission

The mission of the International Academic School (IAS) is to provide a sustainable, healthy, and safe learning environment that maximizes the potential of every IAS student to become an informed decision-maker, a life-long learner, and a responsible citizen in an ever-changing and diverse global society.

Our Vision

International Academic School (IAS) is driven by the explicit aim, which is to provide quality learning for all students in a sustainable, healthy, and safe education environment. IAS learners will be emotionally intelligent and imaginative learners who will achieve beyond the curriculum and national and international standards. They will make significant contributions to their school, the UAE, and the global community through volunteering work experiences and the sharing of innovative practices and ideas

Students in Grade 2 write their own stories and characters.

The new kitten

Once upon a time there was a girl called Lily she always play with her brother. One time Lily heard some noise coming from the kitchen "meo meo meo". Lily said "what is that noise. It's a kitten" she was happy her favorite animal is kitten but her parents don't allowed her to bring any of the pets but now she was nervous "oh no I need to hide the kitten" she said her. Her mother is coming to the kitchen "uh oh" Lily said. her mother saw the kitten "what an earth is that a kitten why. I told you don't bring a kitten" her mother said "mom I am sorry" her mother said "it's okay we can put the kitten in the zoo we can visit her" and then they put her in the zoo now they always visit her.

Students in Grade 2 learning about different rules in grammar.

Our camping trip

Once upon a time there was a camping trip and everyone joined, then we set up fire and tents, then we did mountain climbing and unfortunately we got lost, then we were scared, and the teachers came seeking us but we're just walking around and

it makes the teachers harder to find us so the teachers finally find us and we learned our lesson that we should listen to our elders or teachers and walk with them.

The story was about that we have to listen to our elders or teachers or anyone who's older or bigger.

BY Islam Mazen

Grade 3C

A wonderful Boy.

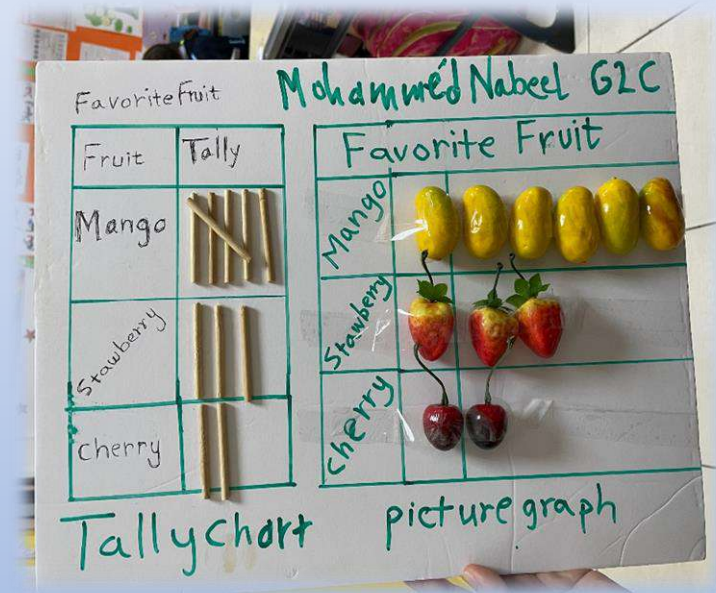

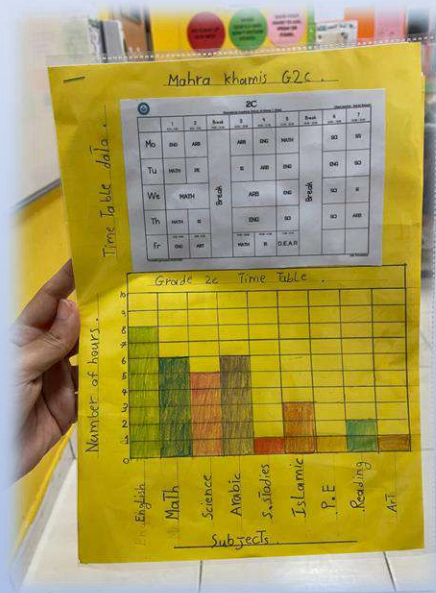

It was Sunday. Little medo got up early morning. He made his bed, he took a bath, he put clean clothes, he combed his hair.

Little medo ate his bread with cheese then he brushed his teeth. He got his bag then he said "goodbye mother, goodbye father" and he head to school.

Madrid

Capital de España y conocida habitualmente como Villa y Corte, Madrid es la mayor ciudad del país y la segunda de la Unión Europea, con una población de más de 3 millones de habitantes. Situada en la zona centro de la Península Ibérica.

El oso y el madroño

La denominación de Madrid como "villa del oso y del madroño" proviene de la primera mitad del siglo XIII. Según la tradición, un litigio entre el concejo y el clero sobre el derecho a ciertos montes y pastos, fue resuelto acordando que los árboles pertenecieran a la villa y los pastos al cabildo. Para conmemorar el pacto, la villa adoptó por escudo el madroño, sobre cuyo tronco se apoya un oso, y el cabildo, el oso pastando.

Madrid como capital de España

Como capital de España, Madrid cuenta con la sede del Gobierno, las Cortes y también es la residencia oficial de los Reyes de España.

En el plano económico, Madrid alberga las sedes de gran parte de las empresas nacionales e internacionales. En el cultural, Madrid cuenta con museos de fama mundial como el Museo del Prado y el Museo Reina Sofía.

Madrid ha sido la capital de España desde mediados del siglo XVI en tiempos de Felipe II. Durante 5 años (entre 1601 y 1606), Valladolid ocupó su lugar.

Gentilicio de Madrid

El gentilicio de los habitantes de Madrid es "madriileño" o "matritense". Históricamente a los habitantes de Madrid también se les ha denominado "gatos"; según la primera teoría, en la conquista de la ciudad por Alfonso VI, sus tropas treparon la muralla como felinos.

Malasaña, Chueca, La Latina, Lavapiés...

Madrid tiene mil caras, y sus barrios son la prueba latente de la diversidad que reina en la capital.

Paseando por los barrios de Madrid es posible descubrir su esencia más castiza, comprar en la "Milla de Oro" o disfrutar de su ambiente más alternativo

Horario comercial

El horario comercial en Madrid es muy amplio y en la zona centro es posible encontrar ciertos comercios abiertos a cualquier hora, sobre todo las tiendas de souvenirs y productos de Madrid.

Las tiendas con horarios más reducidos suelen abrir de 10:00 a 14:00 y de 17:00 a 20:30 horas.

Moneda

Al igual que en toda España y la mayor parte de Unión Europea, la moneda oficial de Madrid es el Euro (€).

Electricidad y enchufes

Los enchufes en Madrid son de tipo europeo, cuentan con dos salidas redondas y un voltaje de 220V.

Research on how technology is related to Business and how it works

Topic: Consumer Skills

Learning Objective: To consider the impact a consumer decision may have on the environment

Grade 9

Date: 1-6-2022

How might a retailer's sustainability practices impact your decision to buy from them?

"As consumers, we have so much power to change the world by just being careful in what we buy" - Emma Watson.
A new study found that 88% of consumers want companies and businesses to improve their environmental footprints and sustainability.

In my opinion, a retailer's sustainability is important because it shows that they are aware of the social and environmental issues facing society, and want to alleviate the ways they contribute to them as a retailer. When a retailer prioritizes sustainability efforts as part of their business, it inspires me to be more environmentally friendly myself. I prefer to purchase from retailers with sustainable and transparent business practices to help improve our environment by: Reducing greenhouse gas emissions. Improving energy efficiency and resource usage, in particular water, minerals, land etc. minimizing air, water, and soil pollution. It can also improve an organization's bottom line by cutting costs, enhance the public image and improve employee health. I consistently try to choose items with long warranties and with low operating maintenance and consumable costs. I would personally rather avoid products with hazardous and toxic materials. Deal with suppliers that have social and environmental policies and who minimize their packaging. The ultimate goal is to have a system which works without leaving a negative footprint. By staying focused on sustainability, recognizing that as customers understand that it's not only profitable, it's the right thing to do, brands will enrich our lives, and as customers will become loyal brand advocates. I believe that retailers have an excellent opportunity to be transparent about sustainability, educate us as consumers, and influence purchase decisions that improve profit—all while making a positive impact on the planet.

TECHNOLOGY AND BUSINESS GROUP WORK (A) COLLABORATION (INSTAGRAM)

Social media aids relationship maintenance by making it simple to communicate with relatives and friends who live far away. It bridges the gap produced by distance. Even if you haven't seen someone in a while, newsfeed updates keep you up to date on what's going on in their lives.

The social media app we will specify about is Instagram. Instagram is a social media platform where users can publish photographs and videos to share with their followers or a small group of friends. They can also look at, comment on, and like posts that their friends have published on Instagram. The logo is a Polaroid camera, which reminds people of nostalgia, childhood, and family photos, among other things.

Instagram has grown in popularity as a platform for connecting with brands, celebrities, opinion leaders, friends, and family. It is also to enable users to share images or videos with their followers.

Advantages of Instagram:

Find users who share your interests. Promote your content. Make some money, upload and share images and videos. Create a brand for your company. You can succeed with the help of free tools. It's simple to become involved. Filters that are quite impressive. Self-expression, self-identity, community building, and emotional support are some of Instagram's beneficial benefits.

Disadvantages of Instagram:

Instagram also affects the cycle of life. A user may shoot dozens of photographs, pick one, navigate through dozens of filter options, pick one, and then assess over popularity. This will take considerably longer than the average follower will commit to the product.

How will we use Instagram to promote our business?

Boost your content creation.
Cross-promote your Instagram postings on other social media platforms.
Concentrate on content that is centered on individuals.
Experiment with hashtags that are both branded and business.
When you have the opportunity, tag brands, followers, and locales.

What we used with: Clear understanding of the topic displayed.

GROUP D
Hala and Rahat Adnan

27/5/2022

Technology and Business

The internet has brought us into a new age of development. In fact, all our daily tasks depend on the internet and technology to a point where the total number of internet users around the world grew by 196 million in the past 12 months – that's an average of more than 500,000 new users each day! One of these advancements in technology is the introduction of a FREE messaging and video calling app: WhatsApp.

WhatsApp is a communication app used to send messages, images, audio, or videos. It's a fast, simple, and a convenient way for family and friends to chat, create group texts, share photos and videos, send and receive documents, and engage in private, secure conversations anytime, day or night. As of 2022, WhatsApp is the most popular global mobile messenger app worldwide with approximately two billion monthly active users, outranking WeChat at 1.2 billion users, and Facebook Messenger at 988 million global users.

WhatsApp is the best platform to share and access information that helps you stay in touch with friends, share vital information during pandemics, reconnect with separated families, or desire a better life. According to a study by the Reuters Institute, WhatsApp is becoming a significant source of news in several countries where large information, constituting images and documents can be sent across seamlessly. In addition, WhatsApp was extremely beneficial during the pandemic. It was a way people contacted their families from different parts of the world, as well as they were able to send important documents and pictures, updating each other and ensuring they are all safe and healthy.

Furthermore, WhatsApp allows businesses to engage in two-way messaging with customers via an app that they are likely already using for daily chat interactions. The software provides businesses with a simple and direct way to communicate with their customers and run promotions. Plus, WhatsApp Business gives businesses a personal space to communicate with consumers in real-time. By delivering the information and supporting what consumers are looking for, WhatsApp Business develops loyalty and confidence. A distinct business identification also injects branding elements such as contact numbers, website URLs, store locations, promotional details, and more into WhatsApp conversations. Besides that, anyone can access WhatsApp from all different devices leading to increase in globalization.

Moreover, WhatsApp contains unique features that make businesses succeed in a shorter period of time. These features include message templates, automated messages, a security by default option, and a business profile. WhatsApp's message templates enable sending pre-written messages like appointment reminders, delivery updates, and confirmations. Plus, automated messages allow you to answer consumers 24 hours a day, seven days a week,

ensuring that they are never forgotten. Adding a welcome greeting to new customer messages helps your brand create goodwill while also offering basic information about your business. Not only that but, WhatsApp is proud of its "security by default" policy. The software, unlike other texting apps, encrypts all messages and calls from beginning to end. Only the sender and recipients — not even WhatsApp — have access to the contents of each message, which is protected by a unique lock and key.

However, one of the biggest disadvantages of WhatsApp is its failure to protect its users' data privacy in the past. When it comes to secure messaging, WhatsApp ranks at the bottom of the list because the app is constantly getting hacked. In addition, WhatsApp groups are limited to only 100 people, hence, it's impossible to scale internal communications company-wide. Since messaging through WhatsApp is free, people would chat with their family, friends, colleagues, etc, at any time, and this results in excessive messaging, time wastage, and other unproductive results. Additionally, if an employee leaves the company, removing them from the WhatsApp group could practically consume time, which means they'll still have access to sensitive business information.

In conclusion, WhatsApp is an innovative discovery that had impacted the world in various ways. It is beneficial in many aspects including business, personal life, and education. It allows the sharing of important information, eases communicating with friends and family members, engages in two-way messaging with customers, develops customers' loyalty, and allows access via different devices. There might as well be some disadvantages but, this does not change the fact that WhatsApp is a great creation that helped each and everyone one of us.

Opening day of future museums.

What do you like about the future museums?

What I love about the future museums is it's, well designed and that it has 7 floors and it is shaped like an eye and it looks small in the inside but actually it is big.

When you go future museums what you can see over there?

Inside the future museum you can find robots and can learn about the future and some pictures and antiques and stereoscopic about what will happen in the future.

What do you think they might have faced the challenges while making future museums?

They have faced problems like building future museum because it is shaped as an eye and because it has 7 floors and it took them 7 years to build it.

How Dubai Museum is different from Future museum?

Dubai Museum is the major museum in Dubai, United Arab Emirates. It is built They is a lot of difference between Dubai museum and future museum. Dubai in 1971 and it is the oldest existing building in Dubai. The museum was opened by the ruler of Dubai in 1971, with the aim of preserving the traditional the Emirate of Dubai. And the Museum of the Future is an exhibition space for innovative and futuristic ideologies, services, and products. Located way of life in the financial district of Dubai, UAE, the museum of the future has three main elements: green hill, building, and void.

Done By: Fatma Hussain Alsharif 6GA

Opening day of future museums

What do you like about the future museum?

What I love about the future museum is its architectural design, interior design, innovative, futuristic ideas, and its shape the museum has 7 floors and is shaped like an eye with I find very fascinating.

When you go Future Museums what you can see over there?

Inside the future museum you can find uses the latest in virtual and augmented reality, big data analysis, artificial intelligence, and human machine interaction.

How Dubai Museum is different from Future Museum?

The differences between the Dubai museum And future museum are very different. Within the Dubai Museum, you'll discover local antiques and artifacts from countries like Africa and Asia that traded with Dubai. within the museum of the future, you'll discover Virtual reality (VR), augmented reality, big data analysis, artificial intelligence, and human-machine interaction are the hottest trends in today's tech industry. as you can see both museums are very different the Dubai museum focuses on antiques and artifacts meanwhile the museum of the future focuses on new technology.

What do you think they might have faced the challenges while making future museum?

They have faced problems with the architect's design since it is designed to look like an eye it was extremely difficult this project took 7 years to be complete.

by : Bianca Haidrag 6GA

GLOBALIZATION AND THE UAE

Mansoor Otaiba

1 ADVANTAGES OF MULTICULTURALISM

- More Understanding - and Respect - for Cultural Differences.
- Increased Creativity...
- Diversity
- Better Service for Customers and Partners.
- Align with an increasingly Global Workforce

DISADVANTAGES OF MULTICULTURALISM 2

- Tensions between people with different cultural backgrounds.
- Some people have a hard time to integrate into society.
- Language barrier as a big problem of multiculturalism.
- People may fear to lose their identity with multiculturalism.

3 WHAT IS THE BEST THING ABOUT HAVING A MULTICULTURAL IN SCHOOL?

It enables students to acquire skills and develop a positive attitude to communicate, interact, and foster acceptance and tolerance with individuals from varied cultures to create a moral and civic community.

4 THINK OF THREE DIFFERENT THINGS ABOUT THE UAE THAT ARE THE RESULT OF GLOBALIZATION WRITE THEM DOWN?

UAE is the most globalized country in the Middle East because Abu Dhabi, emirates with huge oil wealth and Dubai with entrepreneurial skills At first the economy of UAE was mostly dependent on natural resources, but now it is also concentrating on other sectors for developing profit. Dubai is offering considerable economic conditions and opportunities to foreign investors for doing business there.
