Fun in KG

Going on a field trip enhances their critical thinking skills and gives students a chance to think about a topic or theme from a different perspective.

The KG 2 students had a fun time visiting Chuck E. Cheese. They got to see and learn about the different types of rides and became engineers while exploring how the rides work. It was a great learning opportunity for them.

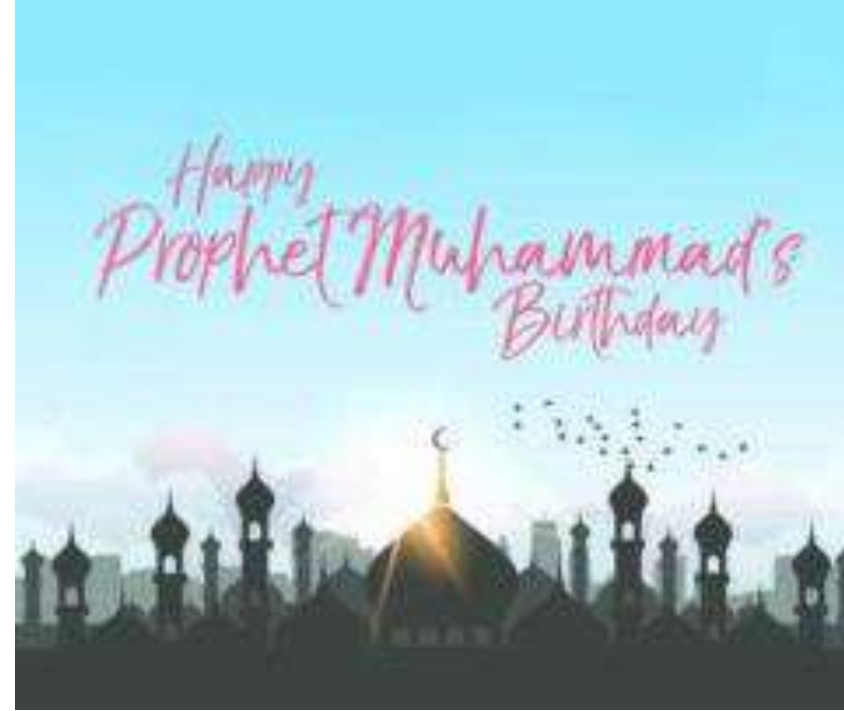

The students Pre KG and KG 1 enjoyed their field trip to Little Explorers. They were given an opportunity to have fun and learn through play.

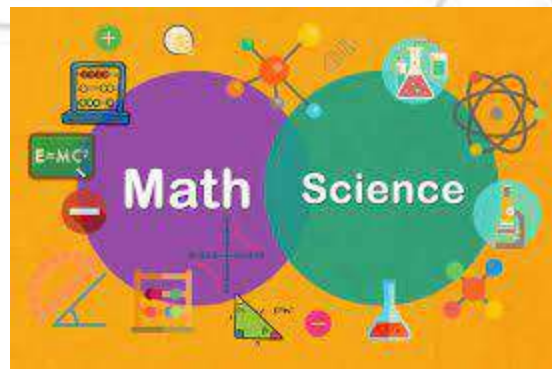

A well-balanced diet provides all of the: energy you need to keep active throughout the day. nutrients you need for growth and repair, helping you to stay strong and healthy.

World Heart day is an important annual event, witnessed every year on 29th September. The day is celebrated by organizing various activities and awareness events globally to raise awareness about the heart disease and its preventive measures to manage the cardiovascular diseases.

Prophet Muhammad's birthday is considered an important and auspicious day amongst Muslims. Muslims commemorate this day, which is also known as Maulidur Rasul or Maulud Nabi, by sending their blessings to Prophet Muhammad with recitations of praises and blessings (marhaban).

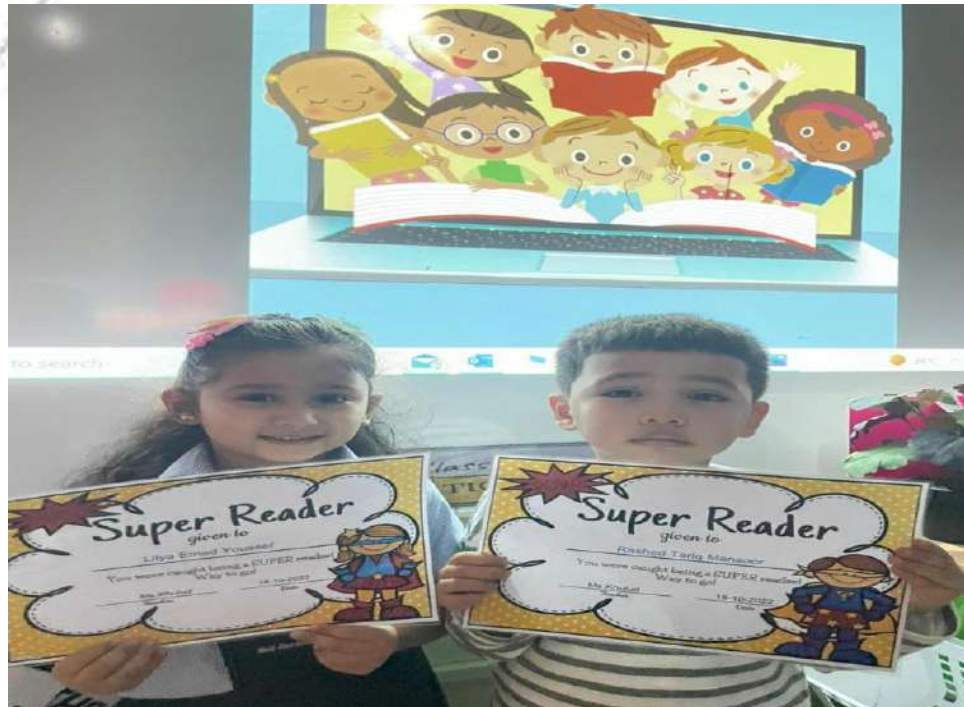

Addition and Subtraction is always challenging in KG 2 D – kids enjoyed solving addition and subtraction problems using different ways !

Force and Motion week was amazing in KG 2 A ! Kids learned more about Motion through Experiments .

Books are the plane , and the train , and the road .
They are the destination and the journey .

Congratulations !
To our amazing Top Readers in Kg 2 D
Rashid Mansoor – 10,865 Points
Lilya Emad – 9,000 Points
Well done Stars !

Prayer Time ...

This is how Kg Students
pray in their Islamic
Lesson.

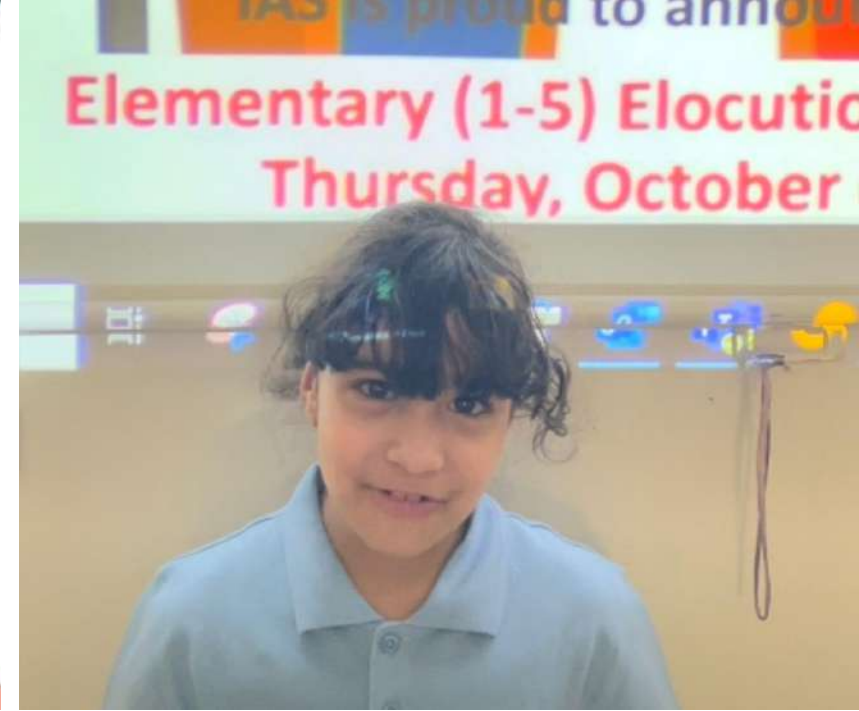

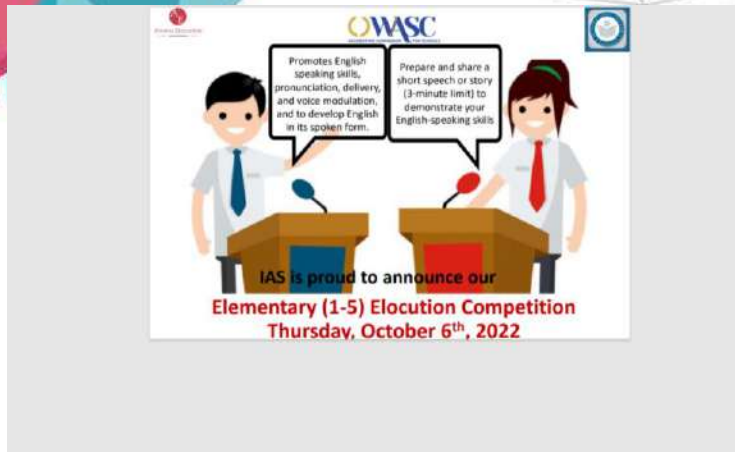

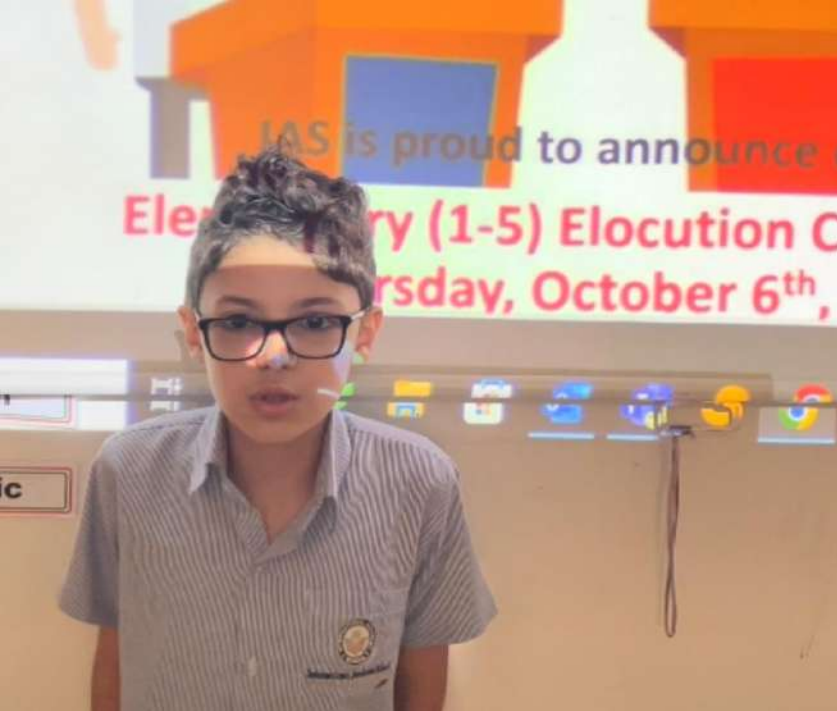

Elementary Stars

Differentiation is important because it helps all students within a classroom reach their highest potential. This is done by way of engaging and appropriate learning experiences. These experiences challenge and support them on their path to developing a deep understanding of the content. The students of the elementary department enjoyed exploring different math concepts using different differentiated activities. They explored area using the geo-board and elastic bands. They used the different math manipulatives to explore addition and subtraction facts.

Elocution plays an important role in the formation, articulation and pronunciation of speech . It helps students to exhibit their oratory skills. Elocution competitions help students to develop their self-expression and confidence. The elementary students got an opportunity to express themselves by speaking on different import topics. They spoke on topics such as: bullying. my school and why it is import to have respect. This helped with their self-confidence and language development.

Going on a field trip enhances their critical thinking skills and gives students a chance to think about a topic or theme from a different perspective. The elementary students had an amazing time exploring the ocean and the forest habitat at Expo 2020. They made robots and had fun watching them work.

Going on a field trip enhances their critical thinking skills and gives students a chance to think about a topic or theme from a different perspective. The elementary students had an amazing time exploring the ocean and the forest habitat at Expo 2020. They made robots and had fun watching them work.

The elementary students got an opportunity to showcase their artistic talent while they participated in the drawing and photography go wild Dubai held at Ras Al Khor at the conservation and sanctuary building.

High School Scholars

The senior boys visited the Emirates Aviation College Dubai. They were given the opportunity to explore the different planes available and how they work. It was great hands-on experience for them. Some of them will become future pilots.

First aid is an important tool in quickly responding to accidents to ensure that injuries can be efficiently and promptly dealt with before a trained medical professional arrives to administer more specialized treatment. The high school students enjoyed learning first aid as a life saving skill. This was an interesting and informative session for them.

Roy Khalil Chamsedine Grade 3B

Why I like my school:

- 1-I learn new things.
- 2-I can connect with my friends and teachers.
- 3-I learn discipline.
- 4-my teacher is the best.

I Love My School.

Retal
GR2D

I like my teacher challenging activities.

I like the positive environment in the school.

I like to learn new things everyday.

I like my teacher and my friends.

Adam
kg 2-D

I Love my School

I like to write

I like to read

I like my friends

Interview with A lovely Teacher Assistant Ms. Janis Santos

Why I Love My School?
I love my school for all the values that it has taught me. Discipline, integrity, camaraderie, compassion to people, unwavering optimism and hope. They helped us see our hidden potential and encouraged us at every turn. It has welcomed us with both arms and made us feel that this is our second home.

Arabic Department

Prophet Muhammad's birthday is considered an important and auspicious day amongst Muslims. Muslims commemorate this day, which is also known as Maulidur Rasul or Maulud Nabi, by sending their blessings to Prophet Muhammad with recitations of praises and blessings (marhaban).

October's Activities

October is Breast Cancer Awareness Month; an annual international campaign aimed to increase education and raise funds for further research into breast cancer.

The entire IAS family wore pink and did several activities around the team to show our awareness. Charity begins at home and through the wonderful guidance of Ms. Rasha we had an awesome bake sale and raised funds to help several cancer patients.

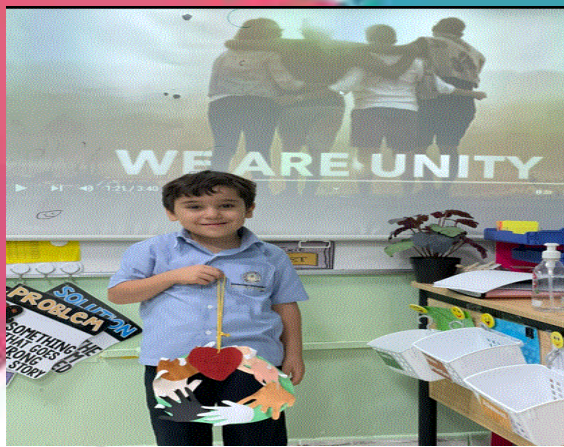

World Teachers' Day is celebrated to honor teachers for their accomplishments, efforts, and contribution to society as well as to the lives of their students.

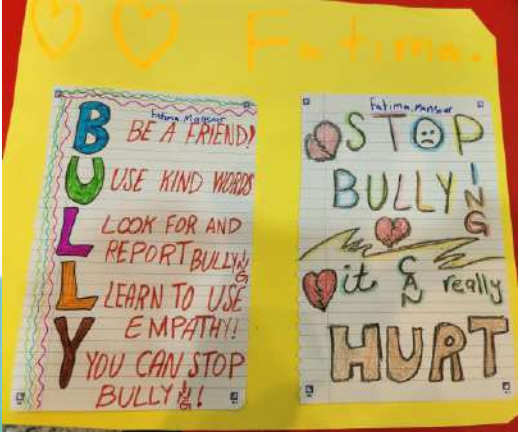

A pet brings increased sensitivity and awareness of the feelings and needs of others—both animals and humans. Kids learned that all living things need more than just food and water for survival. Our Pet Day was so fun !

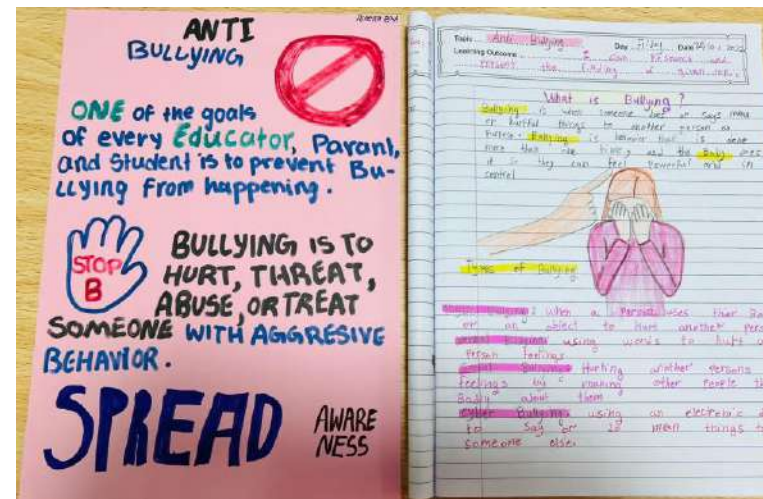

Taking steps to prevent bullying and challenging unacceptable behavior when it does occur improves the confidence and wellbeing of all children and young people; it also provides guidelines and controls for those whose behavior is a concern.

Taking steps to prevent bullying and challenging unacceptable behavior when it does occur improves the confidence and wellbeing of all children and young people; it also provides guidelines and controls for those whose behavior is a concern.

Science Department

Science education gives students the opportunity to gain a better knowledge of how and why things function.

FORENSICS

Science Department

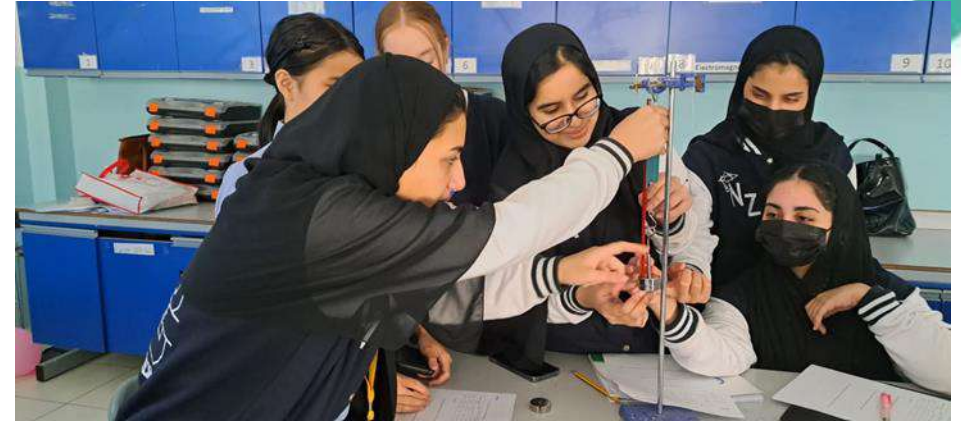

Chemistry is essential for meeting our basic needs of food, clothing, shelter, health, energy, and clean air, water, and soil. Chemical technologies enrich our quality of life in numerous ways by providing new solutions to problems in health, materials, and energy usage.

Science Department

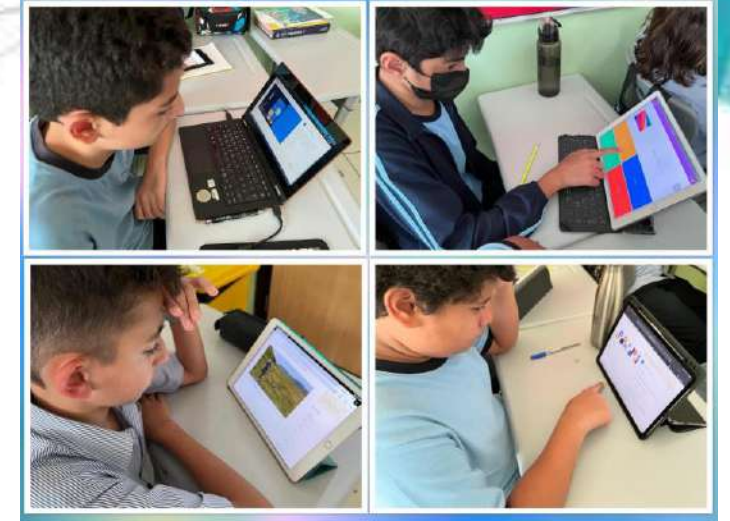

Physics Lab activity – Comparison of Momentum-Grade 11GA

AP Physics Lab activity – Hook's Law

ICT Department

ICT enables the use of innovative educational resources and the renewal of learning methods, establishing a more active collaboration of students and the simultaneous acquisition of technological knowledge. The students did various ICT topics during the month of October.

Computer Assembling Activity

Cyber Safety Awareness Campaign

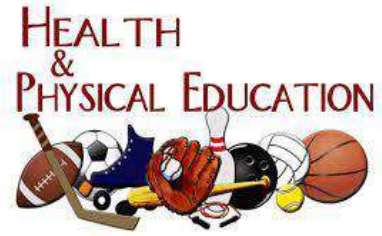

Using Educational Technology in Lessons

First LEGO League(FLL) Competition 2022 Preparations

Self-Paced STEM-Related Programming Activities

P.E Department

Physical Education develops students' competence and confidence to take part in a range of physical activities that become a central part of their lives, both in and out of school.

Kg Students are having their best time in PE lesson , because we believe that A sound mind in a sound body .

UNIFIED FOOTBALL

Join this exciting and competitive event and get to know more about the concepts of Football. You will be introduced to concepts such as dribbling, passing, defending, and scoring in a safe and fun manner.

November 2, 2022
9 AM - 12 PM
GEMS Wellington, Al Khail, Dubai

For Primary and Secondary students
A minimum of 3 athletes of determination per team along with 3 of their friends, siblings or sports leaders

Here's some practical information:

- Wear a school PE kit or active wear
- Bring a water bottle and a snack
- Pack a hat and sun cream, the event is outdoors

Spaces are not limited; all schools are welcome to participate

Math Department

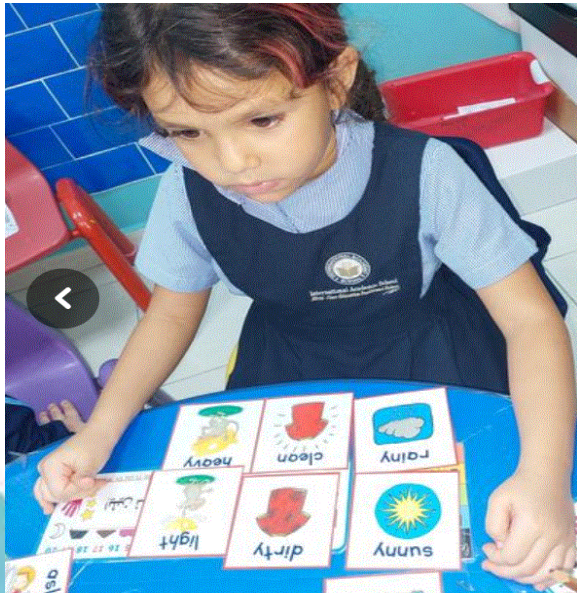

Math provides an effective way of building mental discipline and encourages logical reasoning and mental rigor.

English Department

English language development supports the ability of children to communicate, and express and understand feelings. It also supports your child's thinking ability and helps them develop and maintain relationships. Language development lays the foundation for the reading and writing skills in children as they enter and progress through school.

Teaching practices are constantly evolving as we learn more about children's brain development and abilities. It's essential for teachers to stay up to date with new information and understand how our expanding knowledge about children's brains impacts what they do in the classroom. The teachers had fun while learning different differentiated techniques, team building strategies and first aid skills.

A parent-teacher conference is a great opportunity to: share academic progress and growth based on classroom observations, testing data, assessments, portfolios, and assignments. learn from parents or guardians so you can be better informed about students' strengths, needs, behaviors, and learning styles.

Reaching the Best of Every Child.

Riddle

I went to school with no pen
but came back with 10
pens. Who am I?

Riddle

Plug but no bath. Ink but
no pen. Paper but no news.
Cable but no TV?

- Healthy Food awareness – Kg Department
- Math Competition
- World Science Day
- Spelling Bee
- English Scavenger Hunt

10 HABITS OF SUCCESSFUL STUDENTS

- 1. Get Organized.** Making a plan for what you're going to do and when you're going to do it will make sure you're always ahead of the curve - literally.
- 2. Don't multitask.** Studies have shown that multitasking is physically impossible.
- 3. Divide it up.** Studying isn't fun to begin with and forcing yourself through a study marathon will only make it worse. Dividing your work into manageable chunks and rewarding yourself when you finish each chunk will make studying (more) fun.
- 4. Sleep.** Don't underestimate the importance of those eight hours of ZZ's every night! Getting a good night's rest will sharpen your focus and improve your working memory.
- 5. Set a schedule.** Do you work better right after school or after you've eaten dinner? Are you more productive in 90-minute blocks or half-hour spurts? Find a schedule that works for you and stick to it.

10 HABITS OF SUCCESSFUL STUDENTS

6. Take notes. Taking notes will not only keep you more engaged during class, but will also help you narrow down what you need to study when exam time rolls around. It's much easier to reread your notes than to reread your entire textbook!

7. Study. This one might be obvious, but did you know that there's a right and a wrong way to study? Review your material several days ahead of time, in small chunks, and in different manners (for example, write flashcards one day and take practice tests the next). In other words, don't cram.

8. Manage your study space. Find a place that will maximize your productivity. Look for places away from the television and other distractions. Whether it's your local library or just the desk in your bedroom, set aside a study space that you'll want to spend time in.

9. Find a study group. Sitting down with a group of people who are learning the same things as you is a great way to go over confusing class material or prepare for a big test. You can quiz each other, reteach material, and make sure that everyone is on the same page. After all, teaching someone else is the best way to learn.

10. Ask questions. You're in school to learn, so don't be afraid to do just that! Asking for help - from a teacher, a tutor or your friends - is a surefire way to make sure you truly understand the material.
